Health, safety and environment policy

Mercedes-Benz Russia AO is a subsidiary of Daimler AG, the only official importer of Mercedes-Benz passenger cars and commercial vehicles and smart in Russia. The main activities of the company are organization of cars sales and AfterSales services, dealer network development, supply of Mercedes-Benz and smart original spare parts and accessories.

The directions of Mercedes-Benz Russia AO strategic development, which define the company's targets, are:

- Development of e-mobility and related initiatives for decreasing of CO₂ level and natural resources consumption;
- Reducing of volume of waste located on the ground;
- Reducing water and energy consumption;
- Minimization of environmental incidents, accidents and occupational illnesses;
- Raise safety mindset and employee awareness to environmental stakes and results;
- Providing comfortable work conditions;
- Risk prevention;
- Improving of pollution monitoring system and condition of workplaces.

In order to achieve these targets, we accept the following commitments and principles:

- ❖ Identify improvements plan based on PDCA principles (Plan-Do-Check-Act);
- ❖ Demonstration of continuous improvement of safety and environment management systems in compliance with ISO 14001:2015 and OHSAS 18001:2007/ISO 45001:2018;
- ❖ Compliance with Russian legislation, Daimler AG standards, policies and regulations;
- ❖ Identify environmental program and following resources.

Management of AO 'Mercedes-Benz RUS' implements this policy and ask every employee to take part on it's realization.
